PROFESSIONAL SUMMARY

Results-driven Inventory, Warehouse & Operations professional with 6+ years of experience across the UAE and India. Expert in eliminating manual bottlenecks through RPA (n8n, Zapier, Power Automate) and building real-time visibility with Power BI and SQL. Proven track record in leveraging AI-driven tools and LLM APIs to automate procurement and optimize supply chain workflows in high-volume retail and manufacturing environments.

PORTFOLIO & DIGITAL PRESENCE

- **Personal Portfolio:** www.anaslatheef.com
- **Centralized Project Hub:** Showcasing live deployments of logistics automation, data pipelines, and AI-integrated tools.
- **Interactive Demos:** Features direct links to Power BI dashboards and technical documentation for warehouse optimization projects.

TECHNICAL CORE COMPETENCIES

- **Workflow Automation & RPA:** n8n, Microsoft Power Automate, and Zapier to eliminate manual operational bottlenecks.
- **Data Analytics & BI:** Power BI, Advanced Excel (VBA/Macros), and SQL to build real-time inventory dashboards and leverage predictive analytics.
- **Core Enterprise Systems (WMS/ERP):** Advanced experience integrating and managing Microsoft Dynamics 365, Zoho Inventory, Odoo, and Katana MRP.
- **AI & Smart Operations:** Deploying LLM APIs (OpenAI/Gemini) for smart procurement, optimizing logistics routes, and utilizing modern RFID/IoT tracking ecosystems.

KEY PROJECTS

- **N8n Inventory & Purchasing Automation:** Designed and deployed a low-code automation engine connecting ERP systems with demand forecasting data to automate the purchasing process, reducing manual PO creation by 70%.
- **AI-Based Inventory Predictor:** Built a predictive shortage model using OpenAI APIs and historical sales data, detecting stock risks 2–3 weeks in advance.
- **Smart Inventory System:** Developed an automated tracking system in Advanced Excel (VBA & Macros), eliminating manual entry errors and cutting reporting time by ~50%.
- **Power BI Operations Dashboard:** Created interactive KPI dashboards for real-time warehouse performance monitoring, improving visibility into throughput and accuracy.

PROFESSIONAL EXPERIENCE

Logistics Operations Supervisor

Olofab Impex LLP (Garments Production)

Feb 2025 – Dec 2025

India

- Streamlined end-to-end material handling workflows, reducing the average turnaround time by 15% through Excel automation.
- Designed and maintained daily/weekly operational performance dashboards for data-backed procurement and scheduling.
- Coordinated inbound and outbound logistics for raw materials, ensuring zero stock-out incidents throughout production cycles.
- Assessed and reported on operational costs, identifying efficiency opportunities to contribute to a leaner production budget.

Store Operations Supervisor

FirstCry.com (Retail)

Mar 2023 – Nov 2024

India

- Integrated comprehensive store and warehouse operations, aligning inventory levels with sales targets to drive revenue growth.
- Managed a multi-functional team of 12+, overseeing staff training, performance evaluations, and adherence to retail SOPs.
- Developed real-time stock visibility dashboards using Power BI, reducing manual reporting time by 40%.
- Optimized stock replenishment and shelf availability by analyzing sales trends, maintaining an inventory accuracy rate of over 98%.

Logistics Controller

Automotive Precision Technology

Dec 2020 – Feb 2023

UAE

- Managed multi-location inventory control using FIFO/FEFO principles, reducing material wastage and preventing stock expiry.
- Executed regular cycle counts and physical audits, identifying and resolving discrepancies within 24-hour windows.
- Resolved critical supply chain bottlenecks through cross-departmental coordination, improving material availability on-time.
- Maintained accurate inventory records across ERP platforms, ensuring real-time data integrity for management reporting.

Store Sales Supervisor

Loocca Pvt Ltd (Retail)

Nov 2018 – Oct 2020

India

- Supervised an 8-member retail team, managing daily operations, training new hires, and maintaining performance benchmarks.
- Optimized product replenishment schedules using sales data analysis, reducing stockout frequency by an estimated 20%.
- Analyzed inventory turnover trends to identify slow-moving SKUs, enabling timely markdowns and improved shelf utilization.
- Coordinated with warehouse and buying teams to align stock levels with seasonal demand patterns.

EDUCATION

MBA in Logistics & Supply Chain Management

Lincoln University College, Malaysia

2022

BA in English Language and Literature

University of Kerala, India

2016

Diploma in Computerized Financial Management

Government of India

2018
